Thunder Power Tarp Features

with One-Touch™ Technology

Hinge Joint
Provides constant tarp tension during windy days and is adjustable for various load conditions

HD Arms & Brackets
1st HD system on the market with modular HD polished aluminum arms

New 7000 Series Motor
The 7000 Series Motor has a new sealed motor cover along with increased motor speed.
100% American Made Motor

Easy Motor Disconnect
Single pin can be disengaged in minutes for manual operation

HD Drive Connection
The drive connection to the motor has HD aluminum adapter for increased reliability

Rear Arm Ball & Socket
Ball & socket handles the stress of the flexure of the roll pipe for a smoother roll - Patent Pending -

One-Touch™ Technology
Allows the operator to open and close the tarp system with one push of a button

Watertight Keypad
Low profile, easy to use, epoxy potted for a completely watertight keypad

Amp Relay & Plug and Play Wiring Harness
Amp relay provides outstanding performance & displays easy-to-read diagnostic blink codes to keypad. Junction box is sealed and mounted on the backside of the nose panel and utilizes plug and play connections.

TECHNOLOGY BEHIND THE PRODUCT

- One-Touch™ Technology allows the operator to open and close the tarp system with one push of a button
- One-Touch™ Technology works by measuring amperage load to a preset value
- Open, close and stop your tarp with one push of a button
- Redesigned, easy to use remote transmitter
- Increased motor speed with new sealed motor cover
- Safety features include automatic remote shut-off after 5 minutes of inactivity
